

Title: MGM_Customer_Survey_Year_3.sav

<https://www.mgma.com/datadive-data-collection>

Authors: MGM Creators

The purpose of this dataset was to calculate the start and end dates of gambling addictions. 100 people were given a survey to determine when their addictions started and ended. This includes various stats such as Year, Duration in Seconds, End and Start Date, ID Number, and Progress. All these stats were tracked and combined to find an average in gambling addictions.

-Progress (1-100)

-Start Date

-End Date

-ID Number

-Year
